product repository
e.g. Molly: robot bringup, missions, product features
Use this template
Dharma (template repository)
dharma.repos, robot_bringup, docker, tooling, docs
external (external.repos)
FAST_LIO, livox_ros_driver2, apriltag_ros, Leg-KILO fork
dharma.repos composes
Dharma packages, one repository each (release 0.2.0)
dharma_ odometry
dharma_ localization
dharma_ perception
dharma_ mapping
dharma_ navigation
navigation + control
dharma_ health
dharma_ sim
dharma_rviz
C++ panels
package.xml depends; deps.repos lists them at main for CI
dharma_utils
pure Python + numpy core, thin ROS helpers
dharma_interfaces
messages and services (rosidl)
dharma_utils and dharma_interfaces depend on no Dharma package
